I'm a software engineer with a background in retail management and merchandising. I use my experience in departmental structuring in combination with exceptional client services to provide optimal project outcome.

Skills

HTML, CSS, JQuery, JavaScript, GitHub, MongoDB, Heroku, Bootstrap, Node.js, ReactJS, EJS, EJX, Python, Mongoose, Leadership, MVCs, REST, Postman, PostgresQL, Adobe XD, MERN

Projects

Project Emazon -- https://github.com/StrickQuinn/Project3API, https://github.com/StrickQuinn/Product3Client

- Build a MERN full stack for a retail store, that allows for different vendors to upload products, and users to buy products. Version 1.0
- Fix functions on the React front end so that a product to be added/deleted to inventory, and displayed on an inventory page.
- Organize the team to produce less errors when merging materials, and produce a higher quality product in a more efficient manner
- Tech used: Mongodb, Heroku, Express, ReactJS, React Bootstrap, Node.js, JavaScript, CSS

ProjectBakery -- https://github.com/StrickQuinn/ProjectBakery

- MVC model, RESTful routes using a MERN full-stack application to set up a small business bakery inventory.
- Tech used: MongoDB, Heroku, Express, ReactJS, Node.js

ProjectPlant -- https://github.com/StrickQuinn/ProjectPlant

- Create a game for the player to guess the name of a plant by first guessing a clue to the name of the plant.
- Put together first HTML/CSS/JavaScript project

PlantCareApp -- https://github.com/StrickQuinn/PlantCareApp

- Create a way for the user to maintain care for their plants
- Python3, Flask, Postgresql, Heroku, React

Experience

Bernhard's German Bakery, Marietta, GA - *Bakery Manage*r

July 2019 - June 2020

- Increased business sales through the year for orders in farmer's markets, catering, deliveries, shipments
- Connected business with beneficial relationship (ex. linking Rugby ATL VP with owner for possible future partnerships)

TJMaxx Decatur, AL; Austell, GA - *Merchandising Coordinator*

Oct 2016 - Nov 2018

- Organized truck delivery dispersal and employee arrival to complete 'door-to-floor' of new shipments
- Display setups and features that increased departmental sales in all departments, helping store reach quarterly and annual sales goals

Walgreens Huntsville, AL; Seffner, FL - *Team Lead, CPhT, Health Guide*

Oct 2012 - Nov 2015

- Organized community outreach situations (health screening and vaccination at Tampa Police Department, local schools, and retirement communities), to promote 'Happy and Healthy' goals for our community
- Cultivated innovation to prevent HIPPA violations, and to minimize errors and loss in pharmacy department
- Structured MTMs between patient and pharmacist, immunizations, and health screenings, increasing profits received from insurance companies

Education

General Assembly

September 2020 - December 2020

Software Engineering Immersive Program

Auburn University

Aug 2007 - May2010

Awards
Employee of the Month; Employee of the Quarter; Dean's List; Promoted to Health Guide after 6 months of being CPhT at Walgreens; Promoted to Merchandising coordinator after 3 months as Sales Associate at TJMaxx; Promoted to Store Manager after 3 months as Sales Associate at Bernhard's German Bakery.
